# Secure Platform for Accredited Cybercrime Experts

SPACE facilitates the exchange of best practices among experts in order to further expand the global strategic and analytical knowledge base on cybercrime.

One platform, one goal:  
combat crime in the digital age.

## What is SPACE?

EC3 SPACE is one of the communities hosted on the Europol Platform for Experts (EPE), bringing together cybercrime experts from around the world. The idea behind this platform is to offer and nurture a secure environment based on speed, accessibility, security and user friendliness.

SPACE is divided into two parts: a common area, visible and available for all SPACE users, and a number of closed sub-communities, restricted to specific members only.

## Who is on SPACE?

Access to SPACE is granted by invitation only to authorised cybercrime experts coming from the following groups:

- › Law enforcement from EU Member States' competent authorities and non-EU countries;
- › Judicial authorities, academic institutions, private companies, non-governmental and international organisations;
- › Europol staff.

## What functionalities are available?

Among others:

- › **FORUMS:** start threads, comment or ask a question.
- › **BLOGS:** share a news article or make an announcement.
- › **CALENDARS:** check out upcoming events or create one.
- › **WIKI:** collaborate and share your expertise.
- › **INSTANT MESSAGING:** quickly exchange information through chat, file exchange, voice and video calls.

## Which areas are covered?

SPACE has more than 30 theme-based sub-communities, including:

- › Combating Child Sexual Exploitation;
- › Payment Card Fraud;
- › Malware Analysis;
- › Digital Forensics;
- › Forensic Tools;
- › Cybercrime Prevention and Awareness;
- › Virtual Currencies;
- › Internet Governance;
- › Training.

New groups can be created upon request.

## How can SPACE help you?

### ONE-STOP SHOP

Embrace a new and more dynamic way of working. You are just one login away from finding, sharing and interacting with your peers worldwide.

### SPEED

An arena for problem-solving and quickly finding answers to your questions.

### PROFESSIONAL NETWORKING

An opportunity to expand your network and enhance your professional reputation.

### ASSISTANCE

Reliable communication among actors involved in the global fight against cybercrime.

### COLLABORATION

The possibility to coordinate, find synergies and initiate joint projects within the community.

### EXPANSION

A forum for developing skills and exchanging expertise.

## Did you know?

- › EC3 SPACE was launched in 2013.
- › There are over 6000 cybercrime experts on the community.
- › The library contains hundreds of cybercrime-related materials.
- › New Europol and open source materials are added weekly.

## Would you like to join?
