

3RD ENISA - EUROPOL IOT SECURITY CONFERENCE

Conference

The 3rd ENISA - Europol IoT Security Conference focuses on the cybersecurity of Internet of Things and emerging technologies such as Artificial Intelligence. It will provide a platform for all relevant stakeholders to exchange insights, discuss pertinent topics and challenges, and identify good practices, security measures and solutions.

Time: October 24, 2019 11:00 to October 25, 2019 17:00

Place: Divani Palace Acropolis Hotel, 19-25 Parthenonos Street, 11742, Athens, Greece

For the third year in a row, ENISA and Europol are co-organising a conference to raise awareness on the security implications of the Internet of Things (IoT). This year's event will also focus on the topic of Artificial Intelligence and related security aspects and challenges. The conference aims to enable a broad discussion by bringing together experts from cybercrime units, CSIRTs, international organisations, private industry, regulatory agencies, and academia.

The three main sessions of the two-day conference will focus on:

- IoT Security: state of play
- Artificial Intelligence Security
- Operational IoT Security

The conference will officially open on 24 October 2019 at 11.00h and end on 25 October 2019 at

17.00h, and will be hosted at the Divani Palace Acropolis hotel in Athens, Greece.

All participants will be invited to attend a networking reception on the first evening of the conference.

The event is by invitation only.
