
EUROPOL STRATEGY 2020+

Other

Europol has been evolving and growing ever since its inception, from a small group assisting Member States' investigations mainly on drug trafficking, it is now the EU agency for law enforcement cooperation, contributing directly to the European Agenda on Security by working with and for Member States to combat all forms of serious organised crime, cybercrime and terrorism.

Europol's Strategy provides the framework for Europol's work and level of ambition.
