
GENERAL GUIDANCE ON EUROPOL PROCUREMENT PROCEDURES

Procurement

This guidance complements the procurement documents for each specific procedure. The 'Invitation to tender & tender specifications' describes the service or supply that Europol intends to purchase, the timetable, the exclusion, selection and award criteria, what the participating economic operators are required to provide as part of their submission and the resulting contractual terms. In case of any inconsistency between these guidelines and the individual 'Invitation to tender & tender specifications', the individual 'Invitation to tender & tender specifications' shall prevail.
