Q15	How data subjects can exercise their rights to access, rectification, object and data portability (where applicable)	Via e-mail to the data controller: HeadofHR@europol.europa.eu
------------	-----------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------

ⁱ Head of HR Unit does not need to have access to personal data to be considered a controller. It is enough that the data controller determines the purposes and means of processing, has influence on the processing by causing the processing of personal data to start (and being able to make it stop), or receives the anonymous statistics based on personal data collected and processed by Europol Medical Service.
